

12Ux126HP FOLDABLE EURORACK STUDIO CASE

©2017 Jonatan Liljedahl - www.kymatica.com - 170507

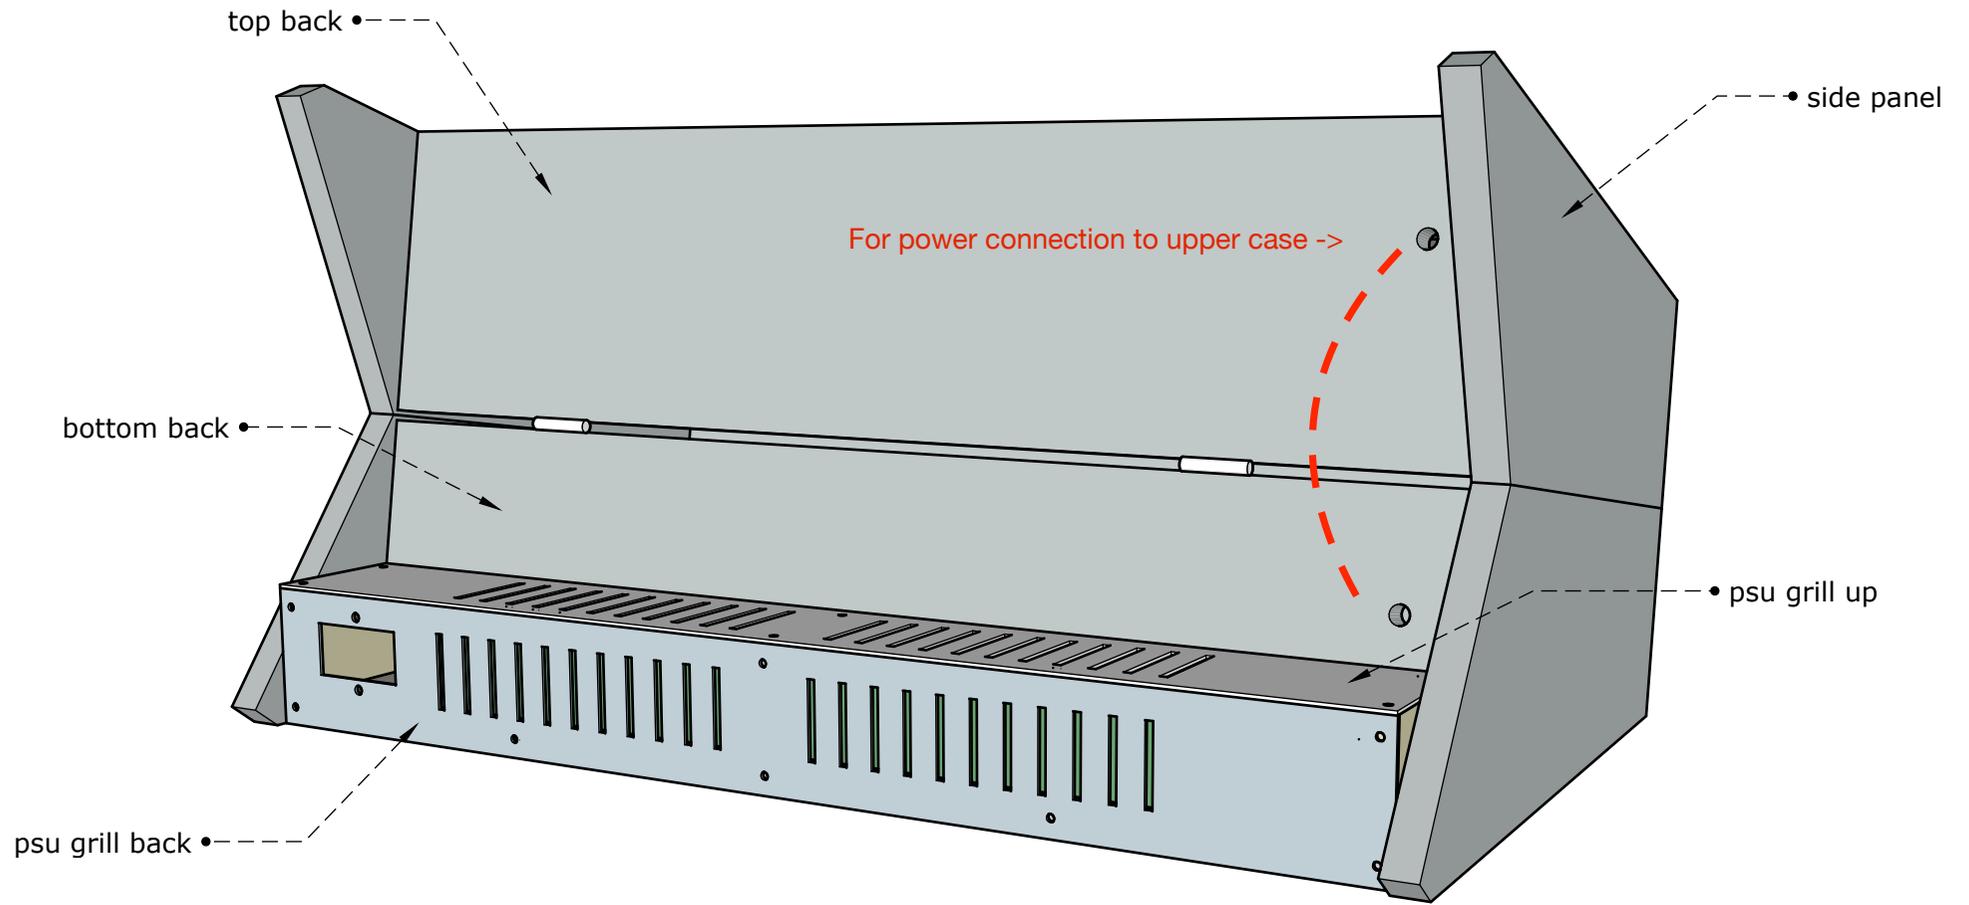

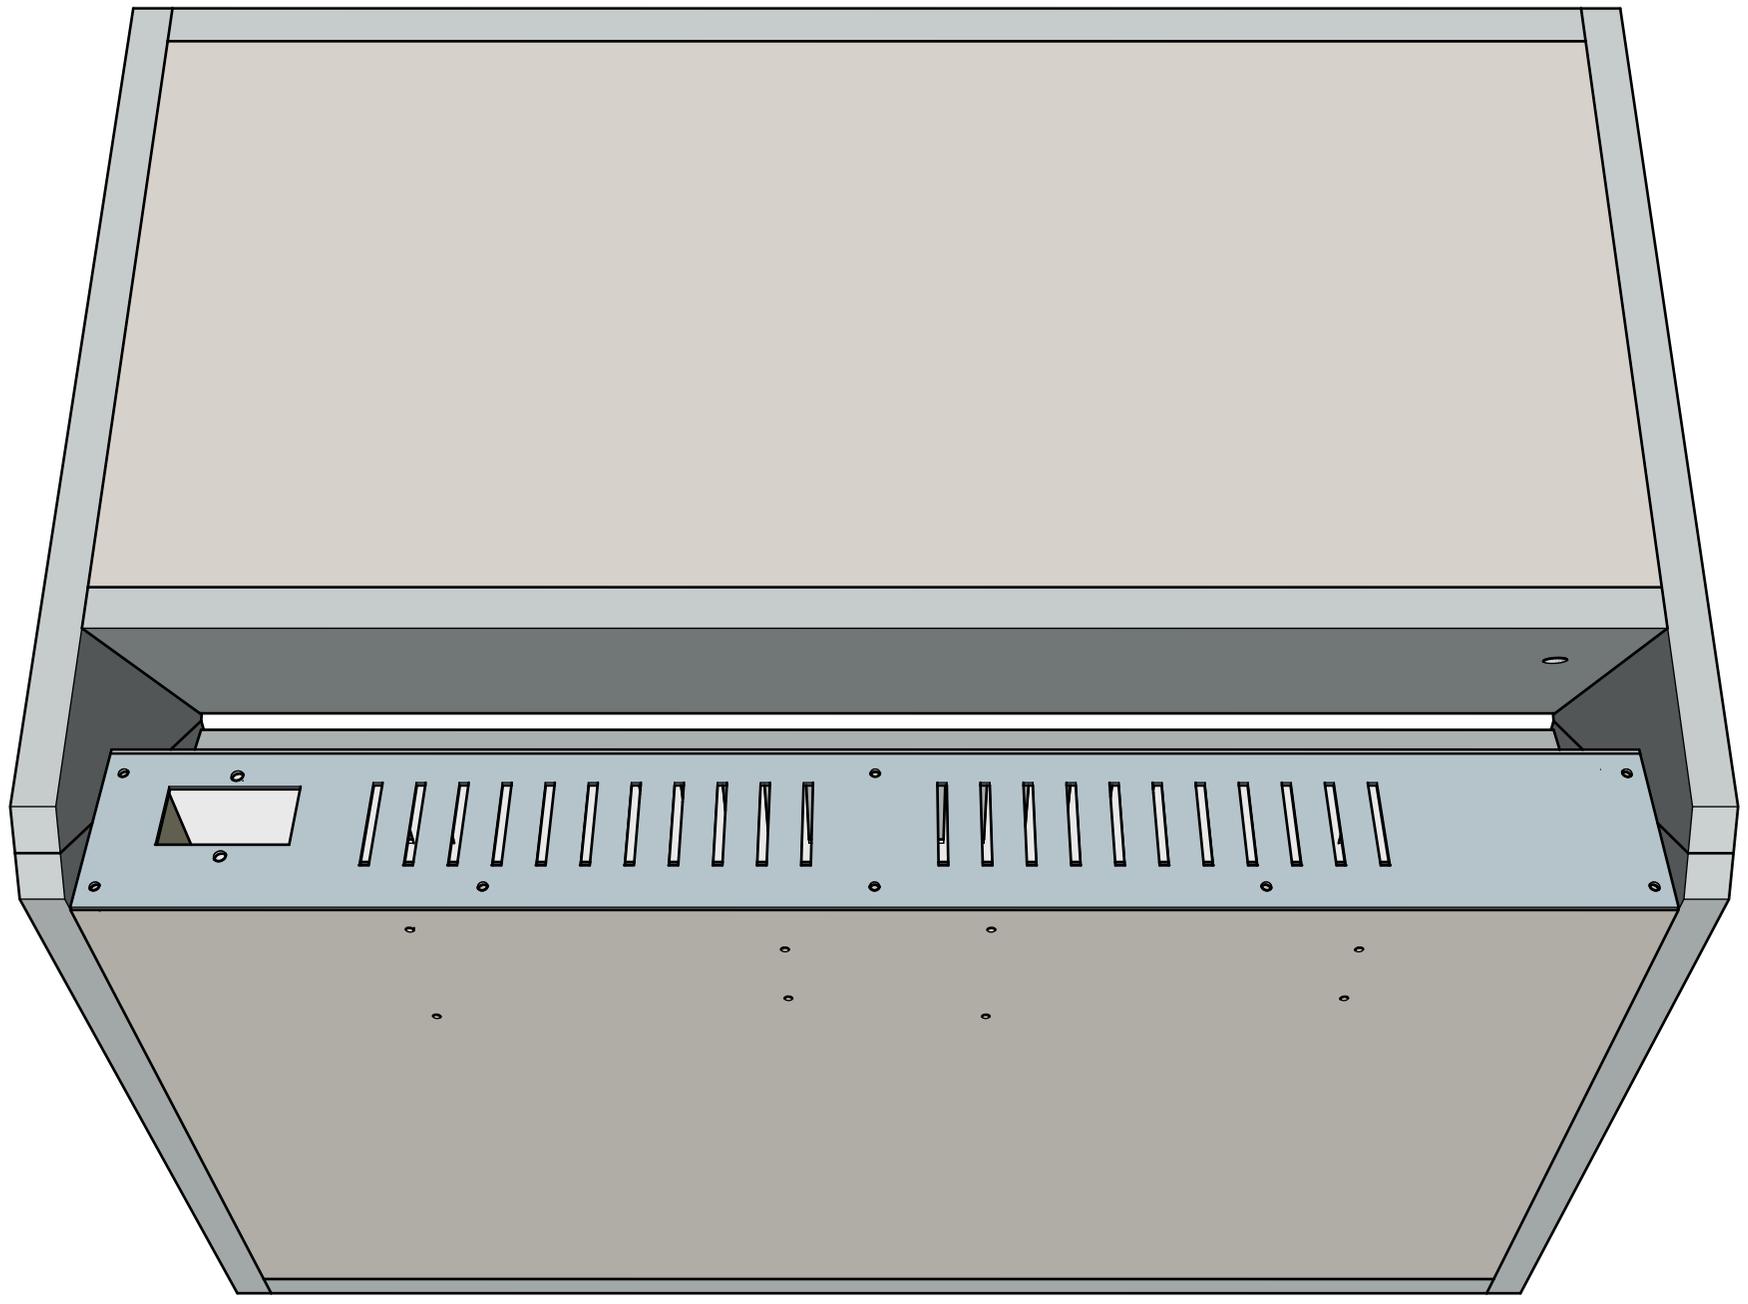

ONLY FOR NON-COMMERCIAL DIY PURPOSES!
(contact me for other options)

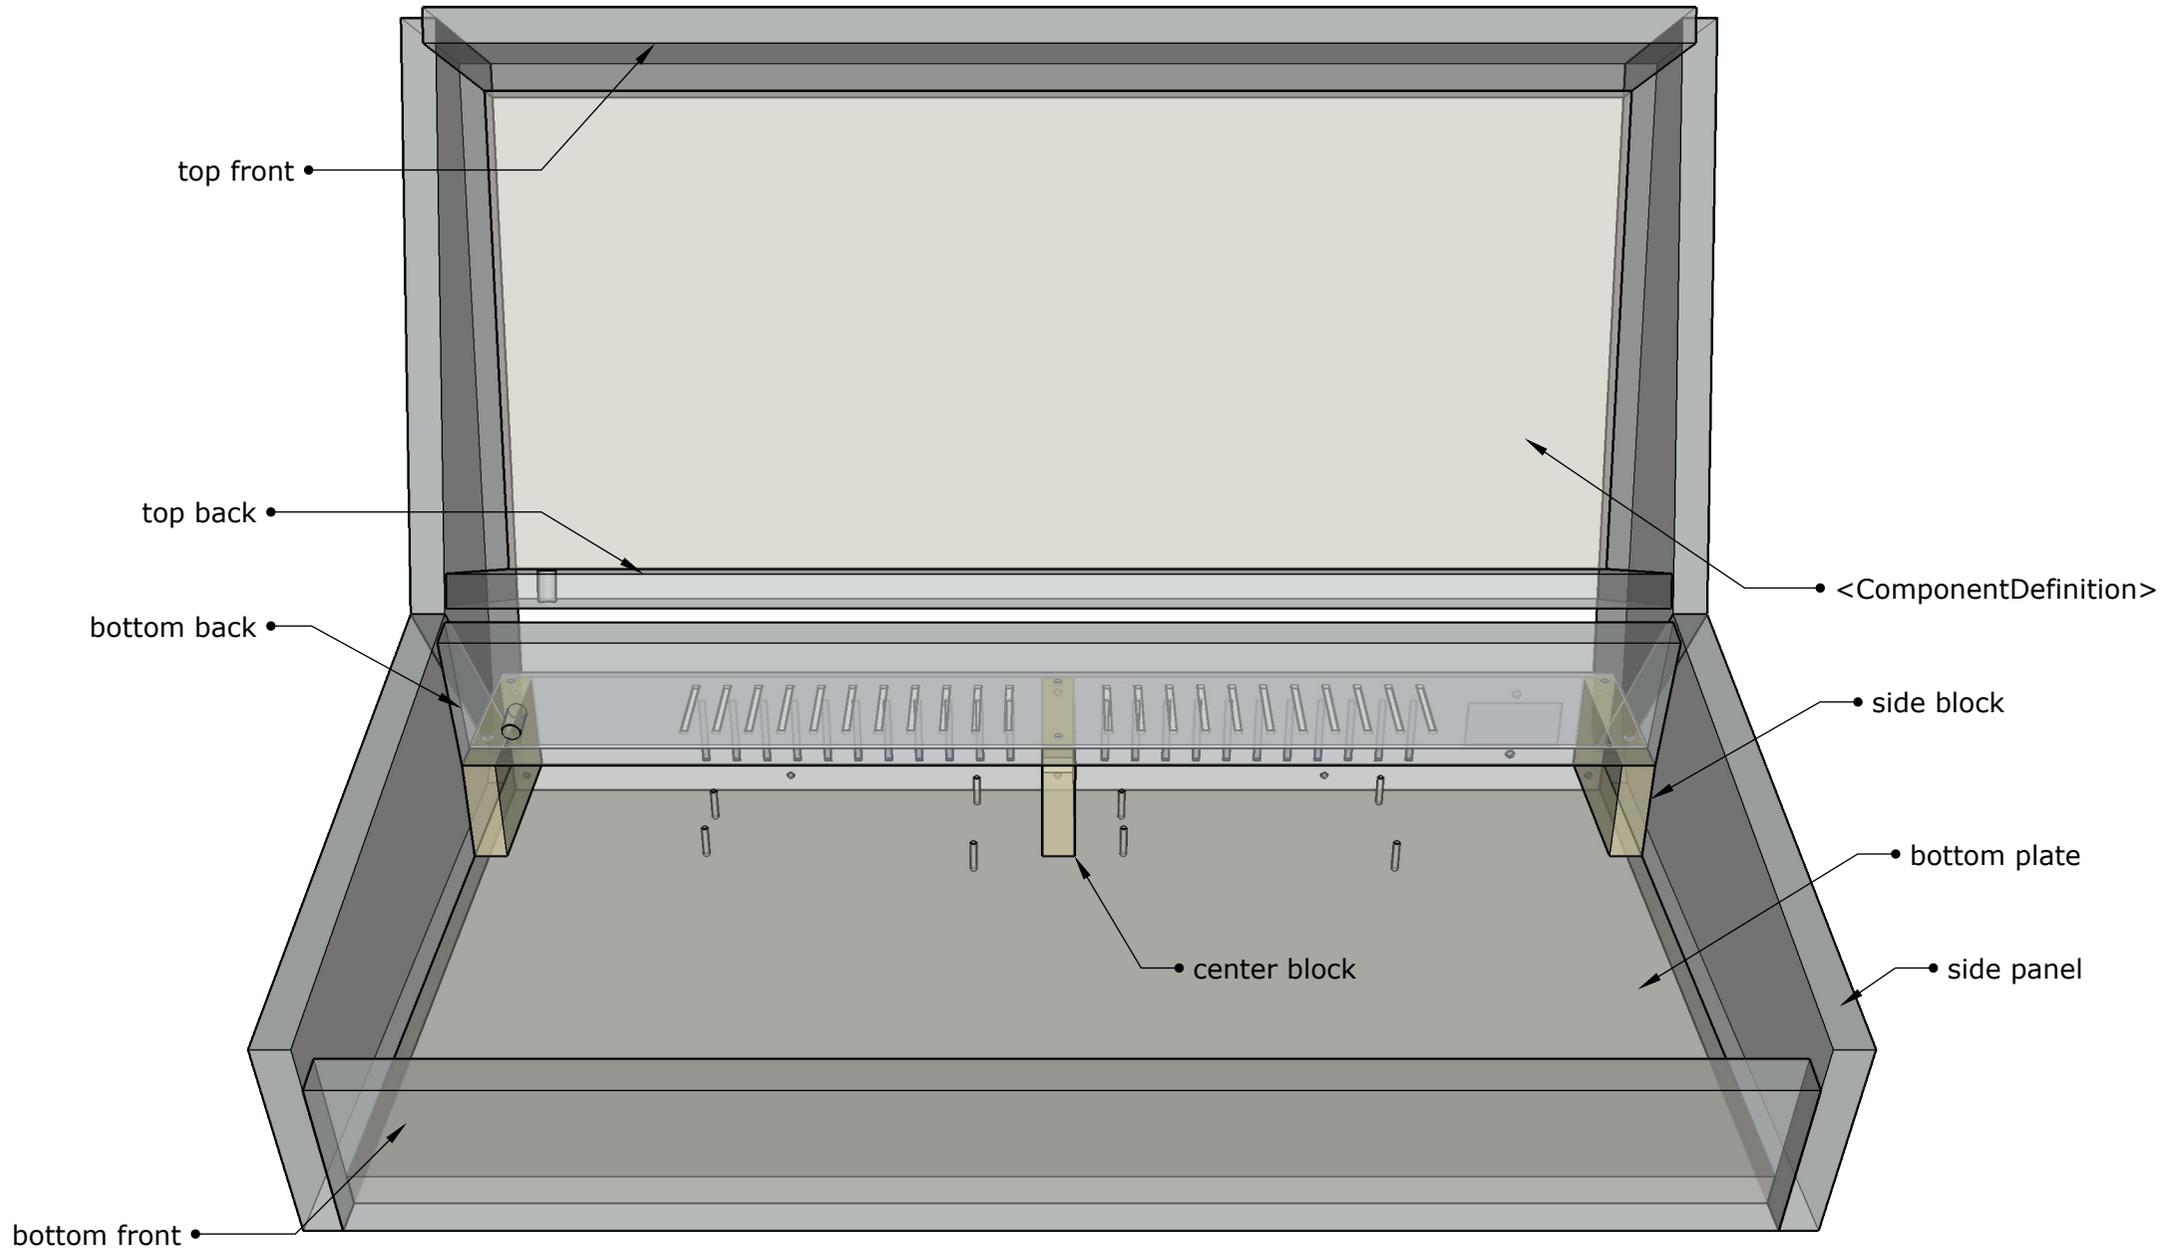

Rails are mounted 25mm from the edge in the bottom case, and 50mm from the edge in the upper case. This gives a total of 75mm clearance, allowing closing the case while patched.

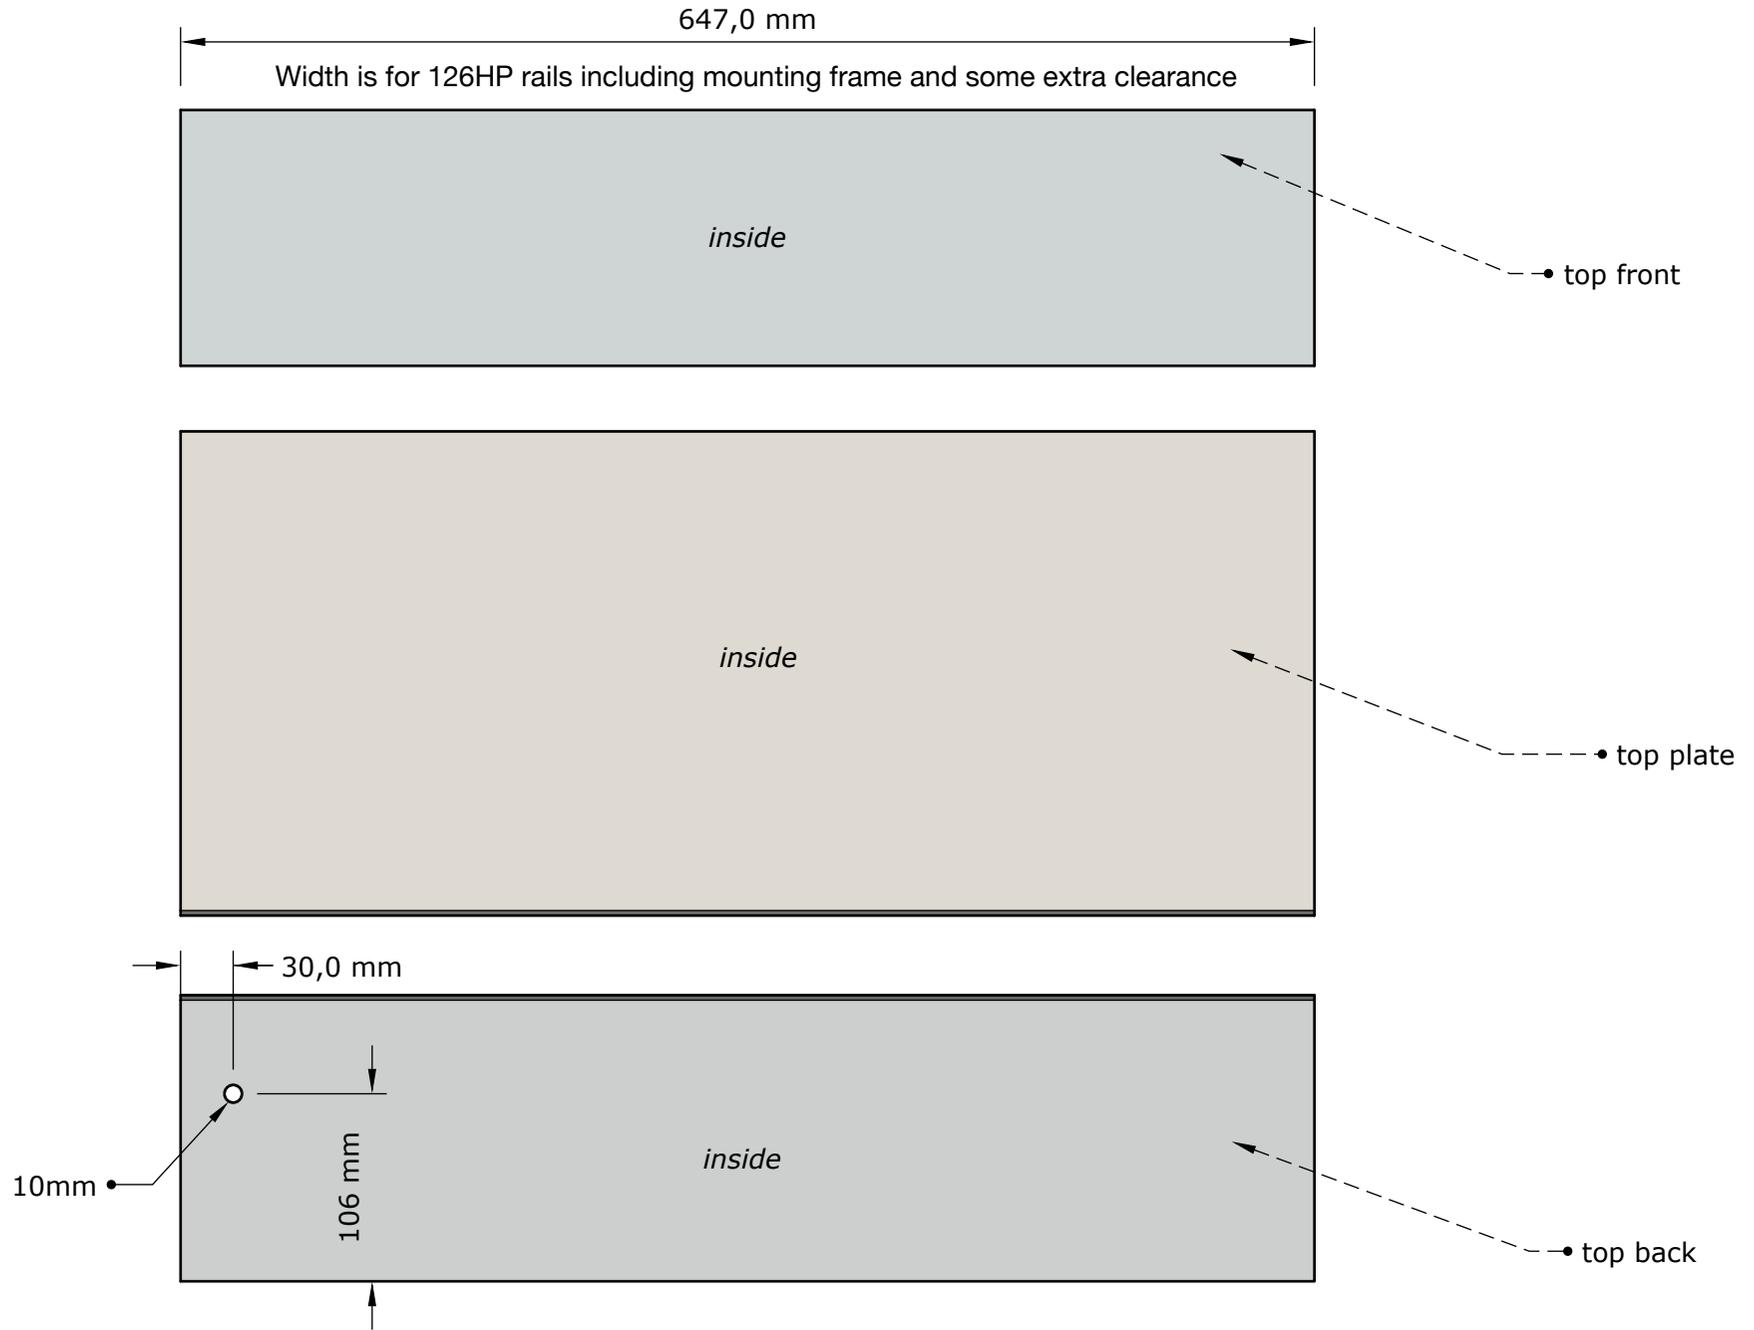

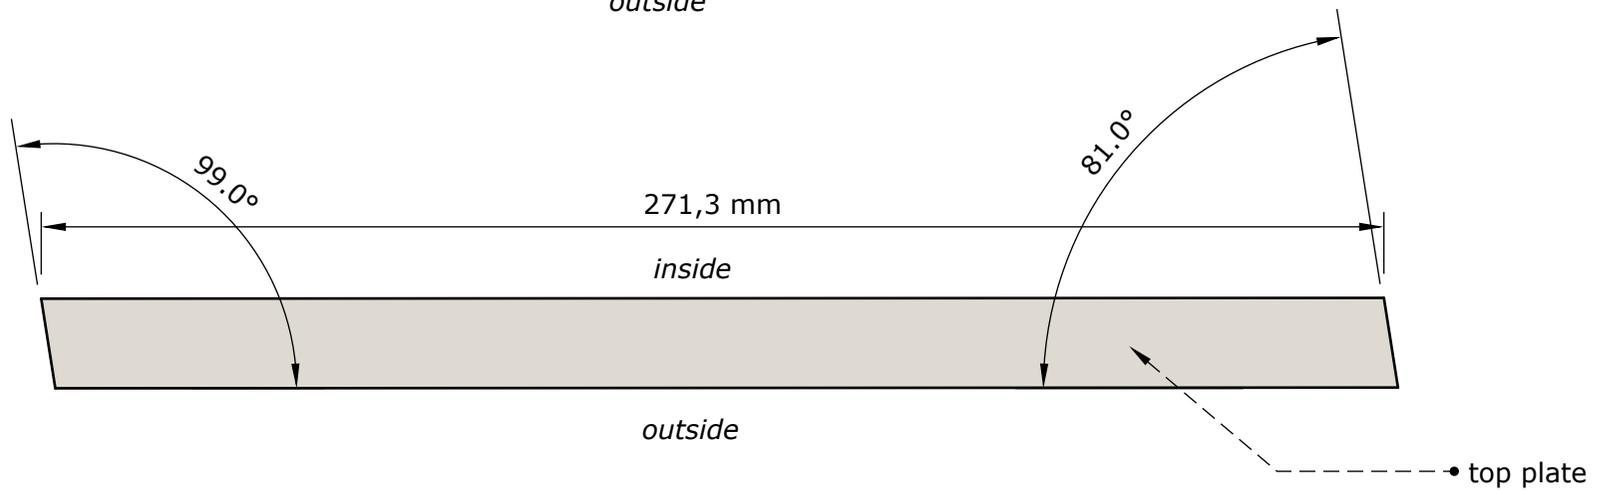

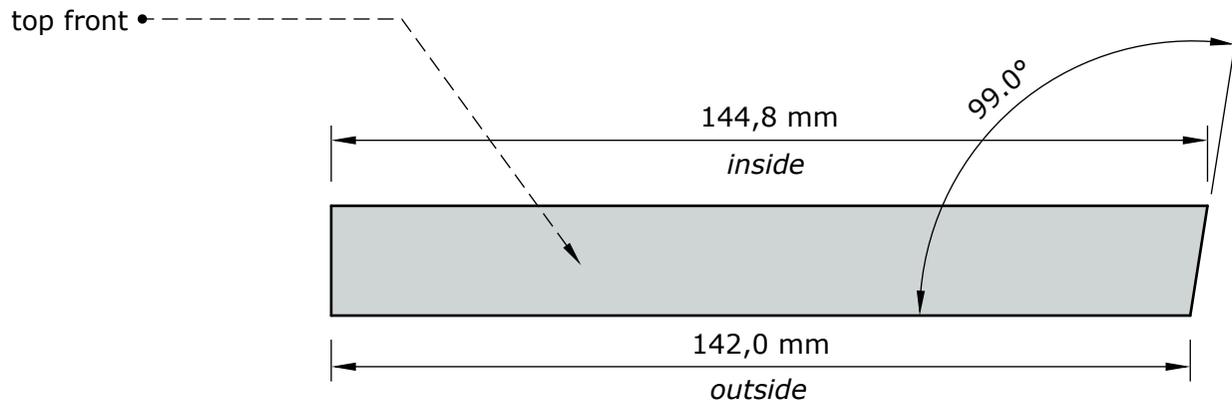

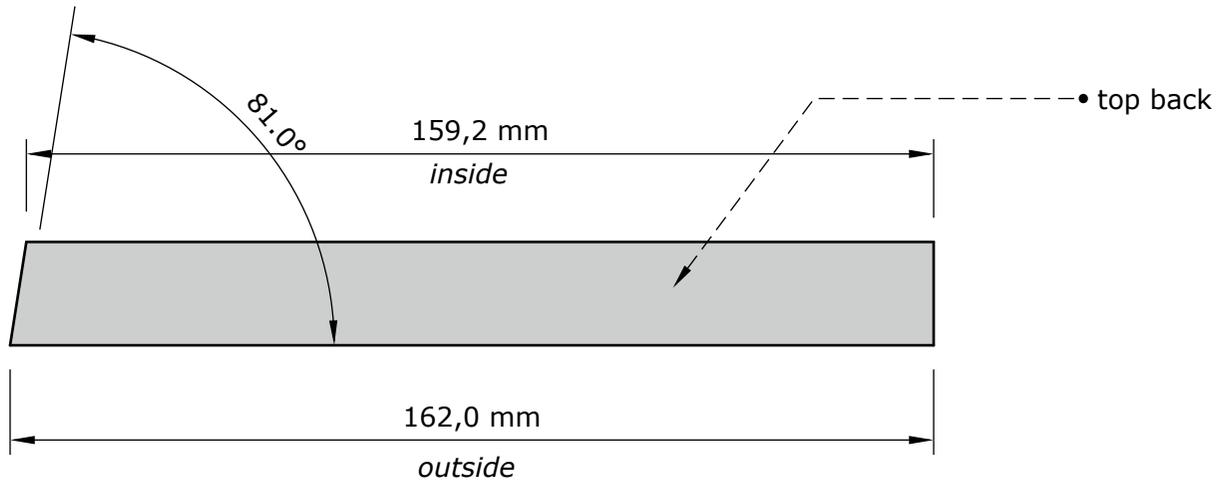

1 x	top front	18mm wood
1 x	top plate	
1 x	top back	
4 x	side panel	
2 x	side block	
1 x	center block	
1 x	bottom front	
1 x	bottom back	
1 x	bottom plate	
1 x	psu grill up	2mm aluminium
1 x	psu grill back	

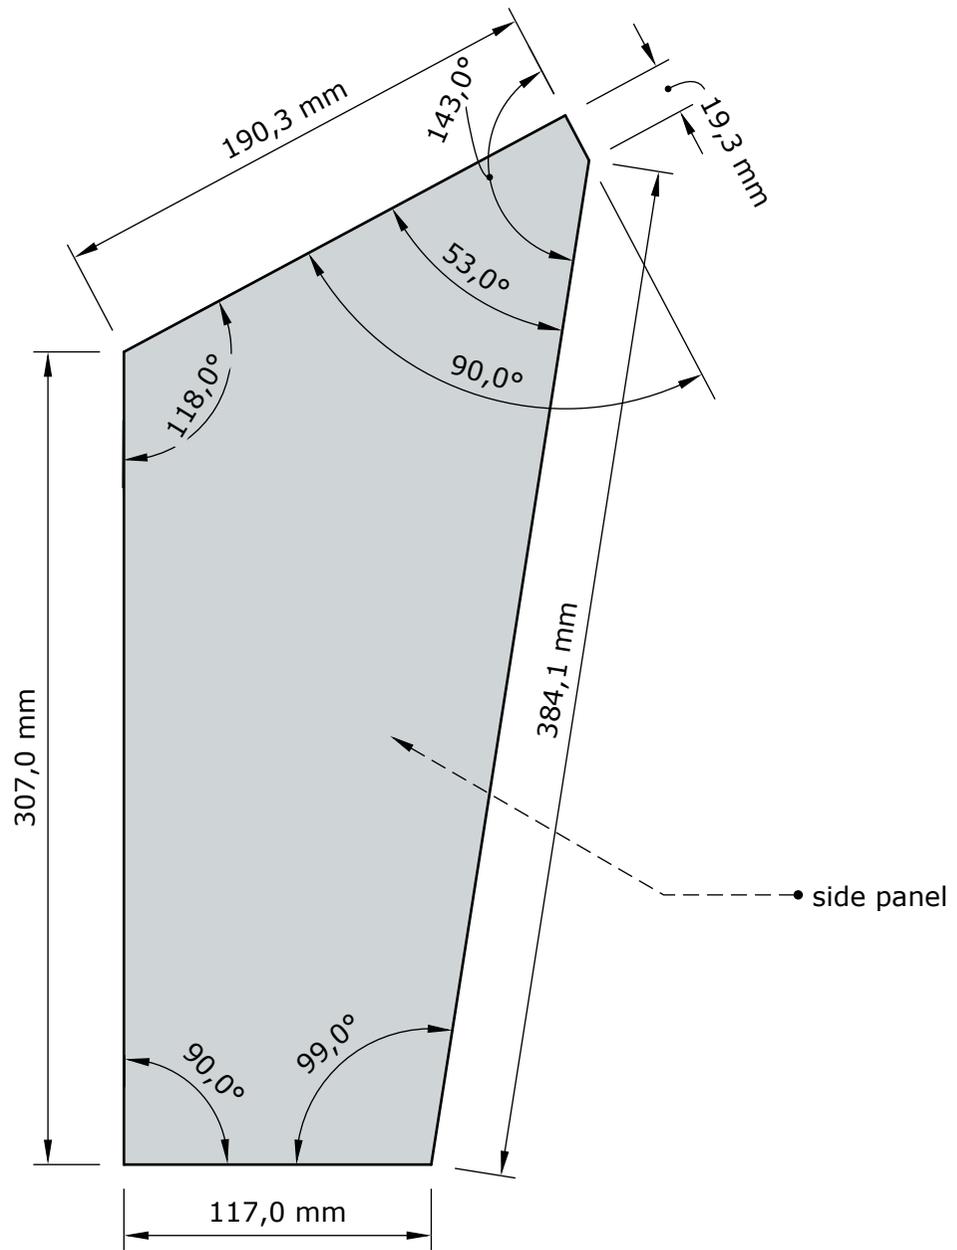

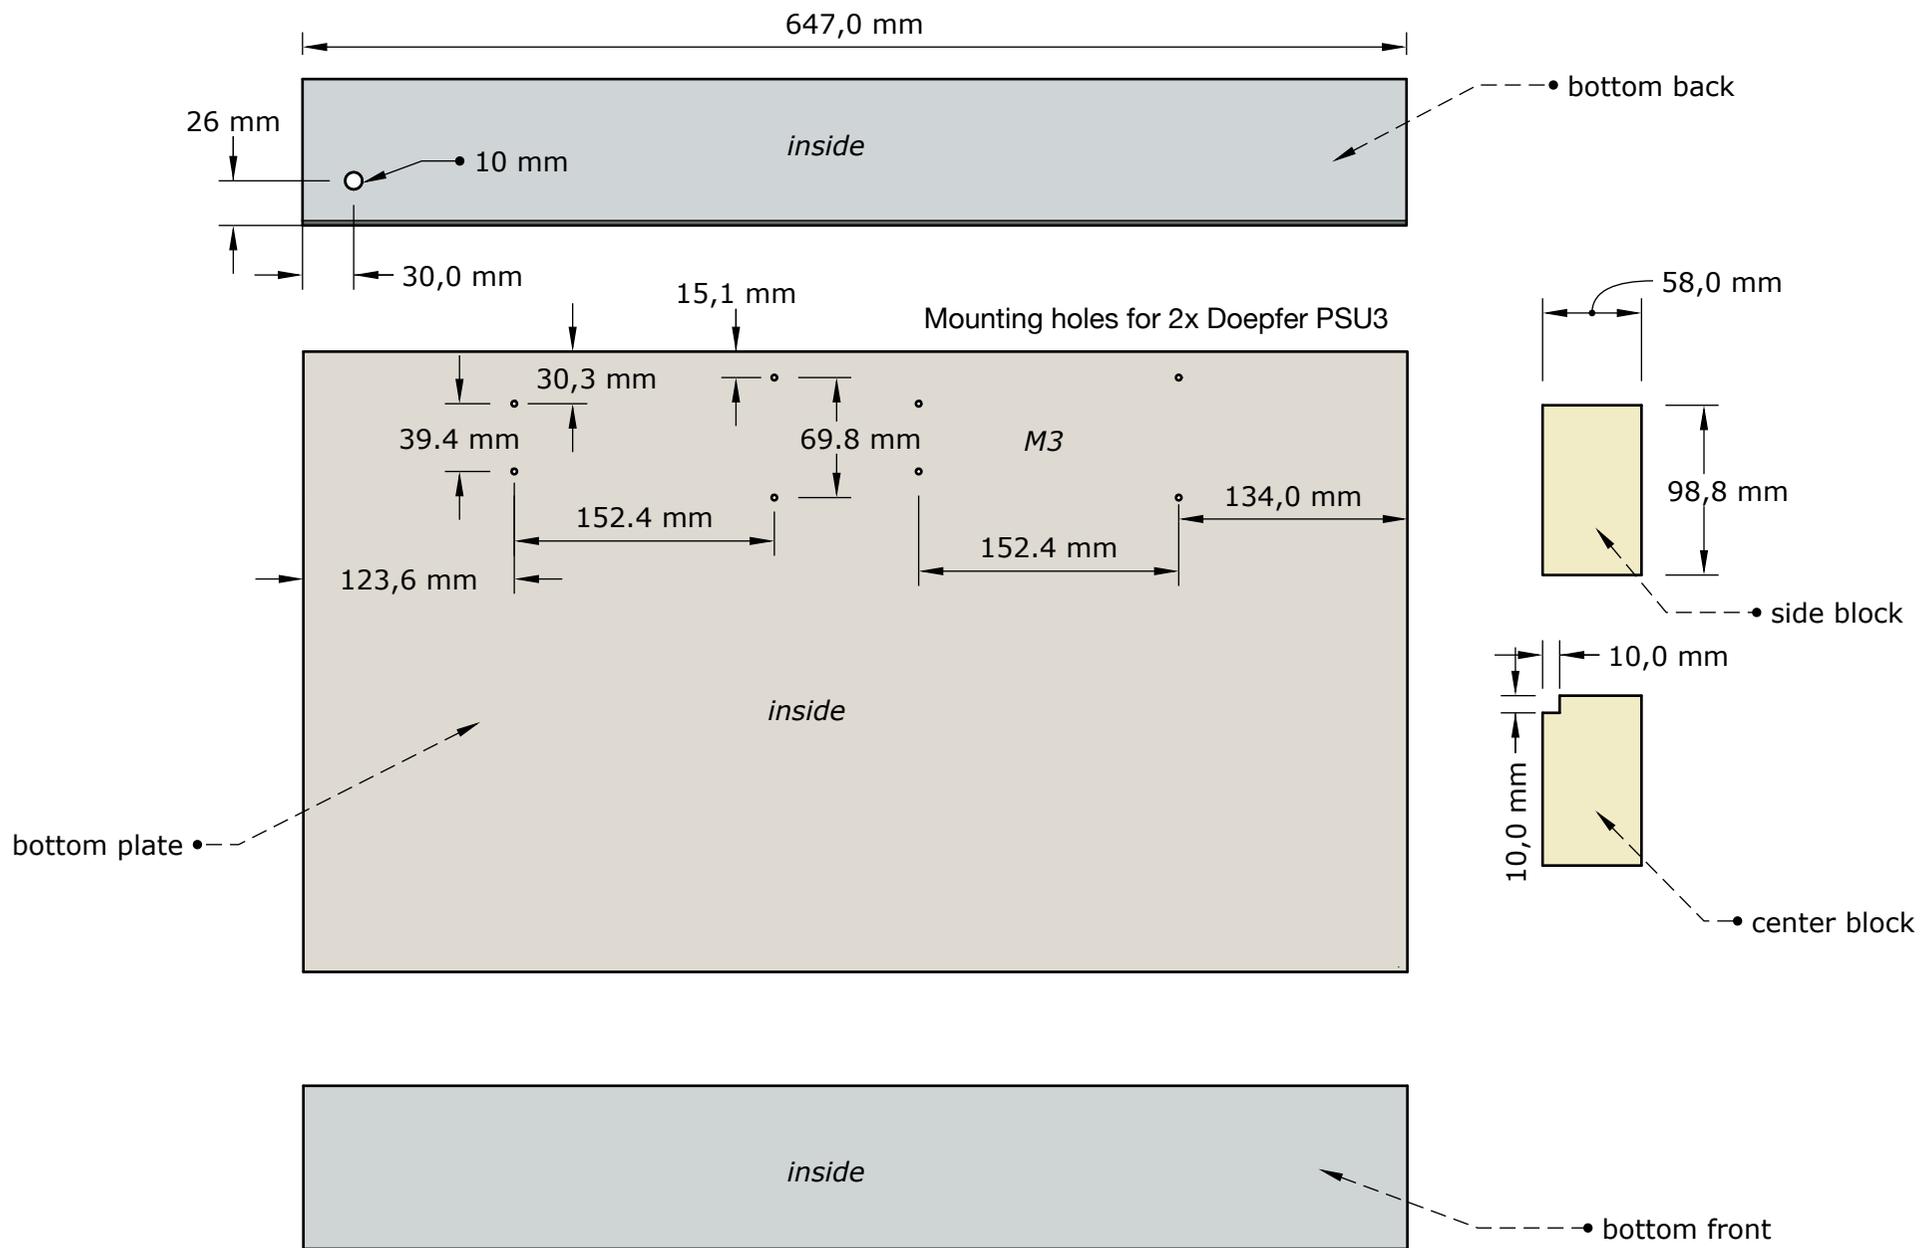

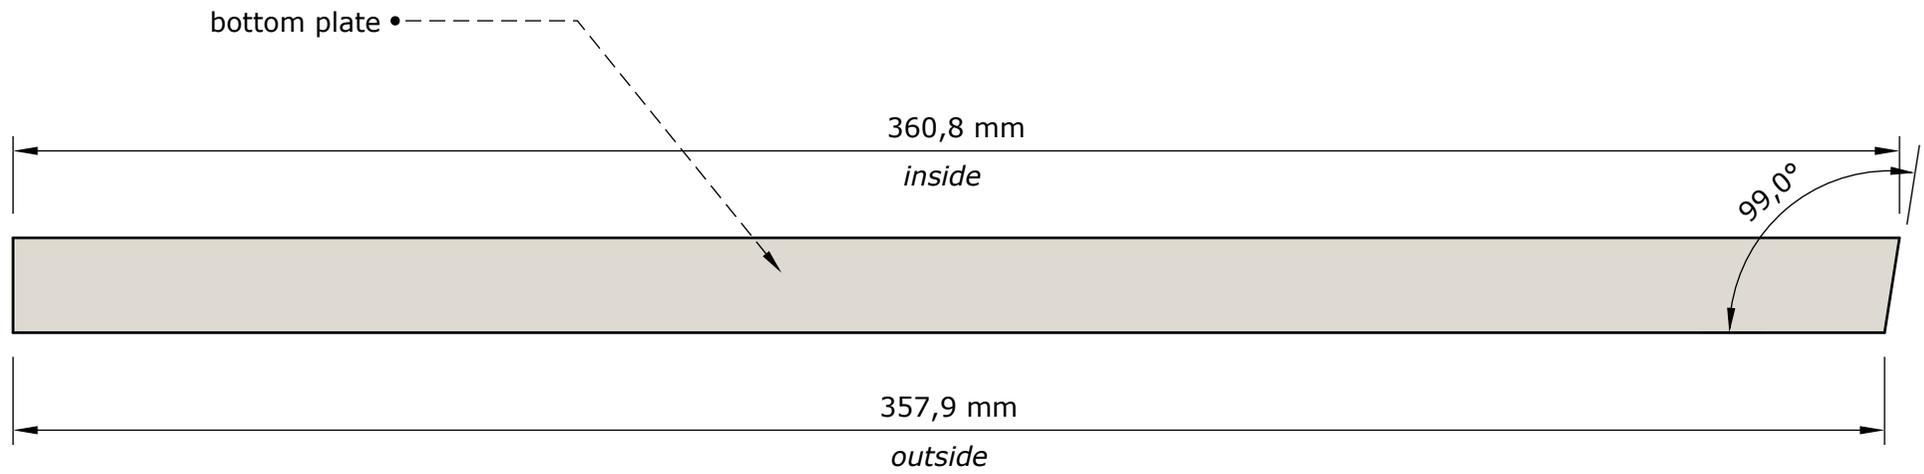

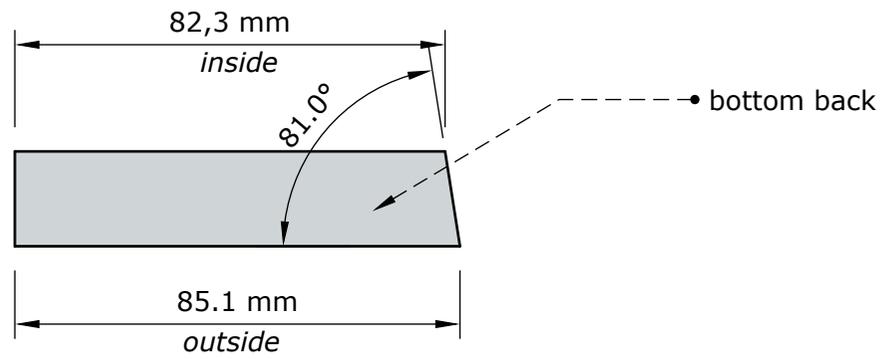

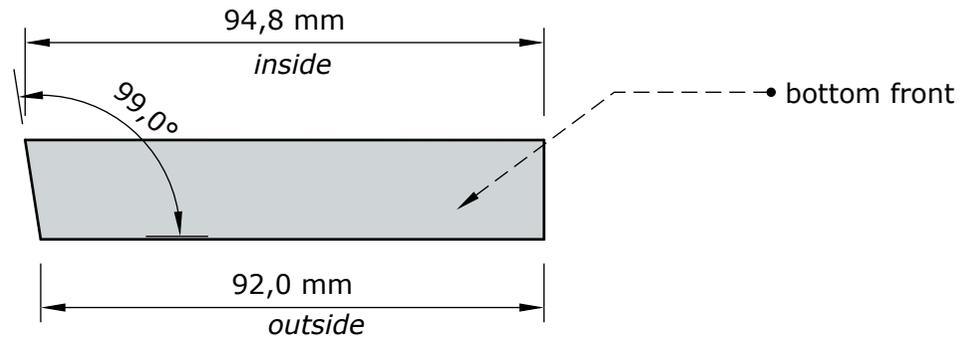

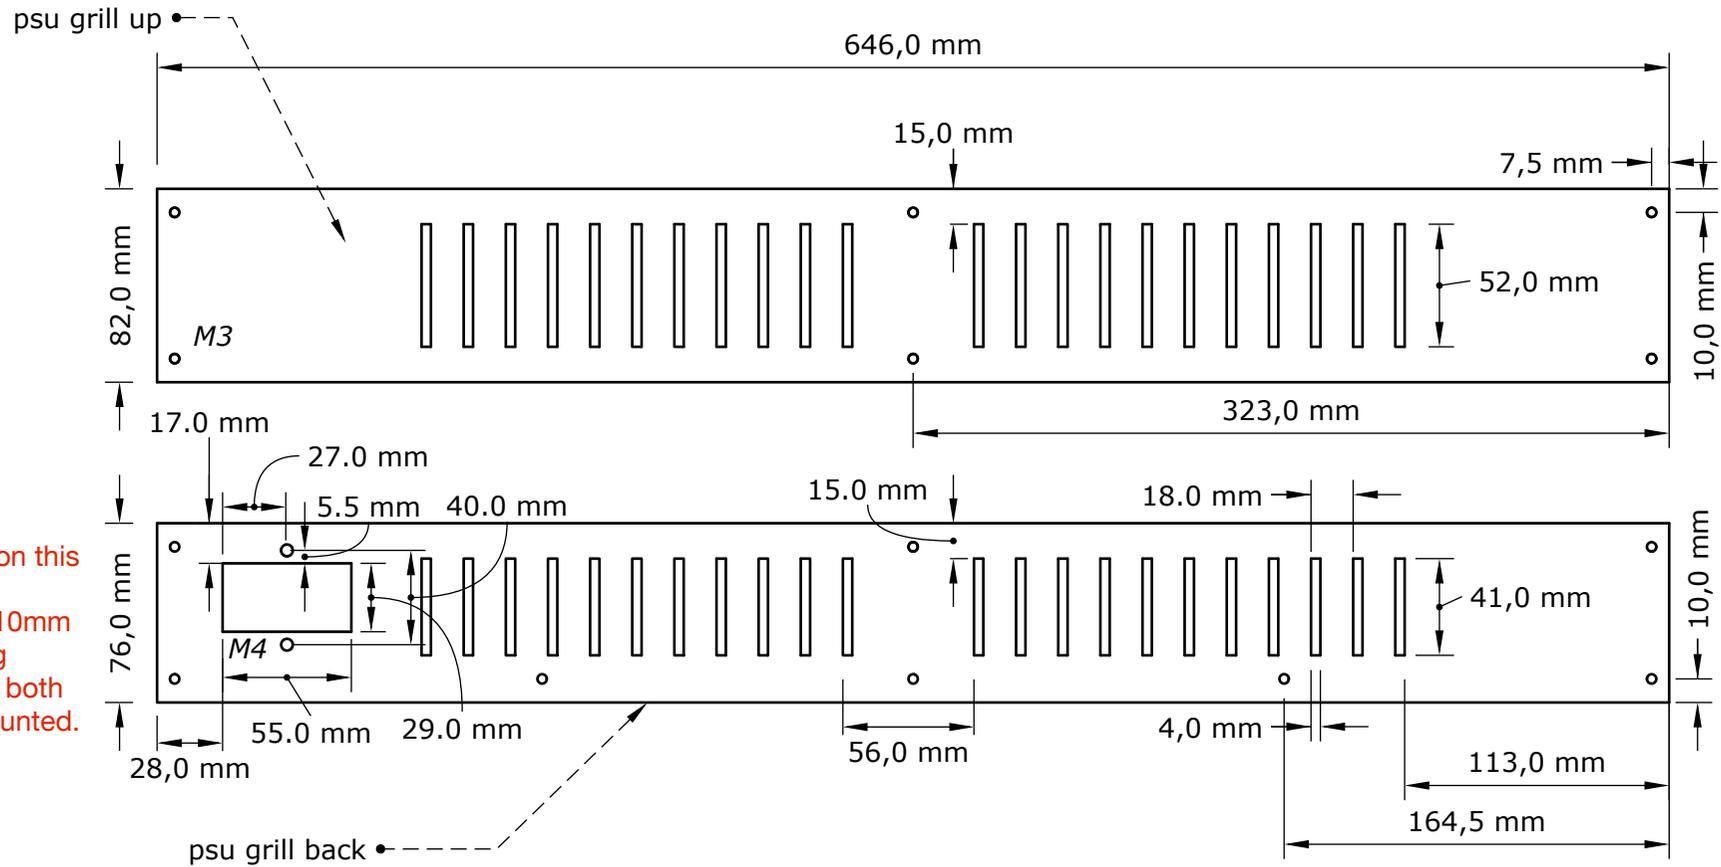

FIXME: The top mounting holes on this panel should be moved down 5-10mm to avoid colliding screws between both panels when mounted.
